THE CARDBOARD TREE

The cardboard tree is a tree intended for putting things back in their proper place, specifically the paper on the trees where it originated.

The tree is also a positive evocation of the world that is progressing, having roots that reach deep into the earth with solid consciousness, having leaves and branches that wave against the sky, dreams, ambitions and fantasies that fly freely. While the trunk remains in the middle, like us, stuck between what we think we know and what we would like to be.

L' ALBERO DI CARTONE

L'albero di cartone è un albero fatto per riportare le cose al loro posto, appunto la carta sugli alberi dove ha avuto origine.

L'albero è anche l'evocazione positiva del mondo che progredisce, avendo radici profonde dentro la terra, conoscenze solide e radicalizzate e foglie e rami verso il cielo, sogni, ambizioni e fantasia libere di volare nello spazio aperto.

Il tronco sta in mezzo, e siamo noi, sospesi tra quello che sappiamo e quello che vorremmo essere.
